Seamlessly designed. Concealed details melt into their stainless steel surround. Sealed, solid-brass burners and geometric cast-iron grates form a robust yet graceful surface, crafted to withstand heavy woks and cookware.

View the full offering of Rangetops on pages 128-129.

COOKTOPS

Five ultra-flexible cooking units designed to be customized for any space or function.

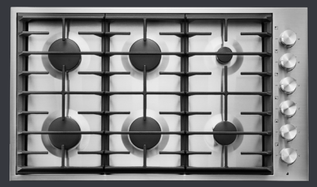

Choose from a Dual Gas Burner, Gas Wok, Chrome Infused Griddle, Induction Wok and Induction Flex Burner, and the option to pair them with the versatile downdraft system.

Eliminate the need for overhead ventilation. That's what our founder Lou Jenn did in 1965 when he defied convention and physics itself to create the JennAir® downdraft ventilation technology. The downdraft vent effortlessly appears at the lightest touch to unleash performance.

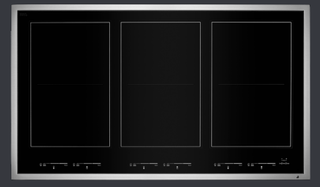

With hundreds of possible configurations available, you can create the bespoke custom cooktop that suits your needs, and more importantly, your desires.

View the full assortment of configurations on page 135.

COOKTOPS

Choose from a wide array of heating elements and configurations for the perfect cooktop to suit your needs.

GAS

Two symmetrical flames emit from each sealed brass precision burner, offering total control over heat levels. High-heat searing. Low, slow simmering. Infinite intermediate settings satisfy every appetite.

ELECTRIC RADIANT

Experience a surface that ascends to new levels of power and precision, with a radiant cooktop that unleashes heat at your command.

ELECTRIC INDUCTION

Unleash the power of magnetic induction cooking. This technologically advanced surface sends heat waves coursing through your cookware for a fiercely precise cooking experience.

Cooktop configurations can be paired with updraft ventilation or our proprietary downdraft technology.

View the full assortment of configurations on pages 132-134.

JennAir® cooktops featured at over 20 JennAir Experience Showrooms across the country.

VENTILATION

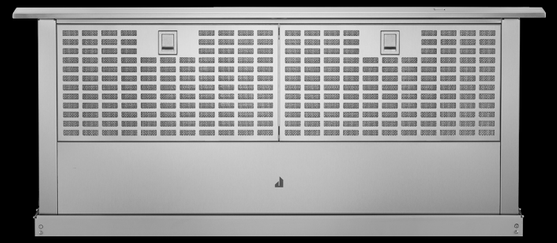

Let your kitchen breathe. Four distinct ventilation options from the originators of downdraft technology.

VENTILATION

For full ventilation offering including hood liners, see page 140.

DOWNDRAFT

The innovation that started it all. Our downdraft ventilation system uses proximity ventilation to capture smoke, steam and odors at the cooking surface, whisking them down and out of the kitchen before they can escape.

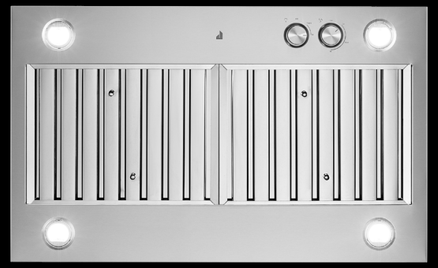

WALL MOUNT & ISLAND MOUNT

Wall installation allows the hood to seamlessly blend in with kitchens that follow a more traditional layout. Island-mount hoods expand installation options to accommodate ranges and cooktops in kitchen islands. If in-wall ducting is not possible or is undesirable, the exclusive JennAir® wall-mount recirculating-only hood is available and doesn't require a separate recirculating kit.

PROFESSIONAL-STYLE

With an exceptional 1,200 CFM blower, these luxury hoods are designed to work with high-heat, commercial-style cooking appliances. Powerfully clearing the air of smoke, steam and cooking odors.

LINER

This custom hood liner features a hidden ventilation system mounted to the inside of a custom vent cover (which can be made of metal, wood, plaster or tile), offering a uniquely streamlined look. It also offers you a choice of motors for different levels of ventilation power.

Warming lamps, inspired by restaurant kitchens, keep food warm until ready to serve.

STATEMENT PIECES

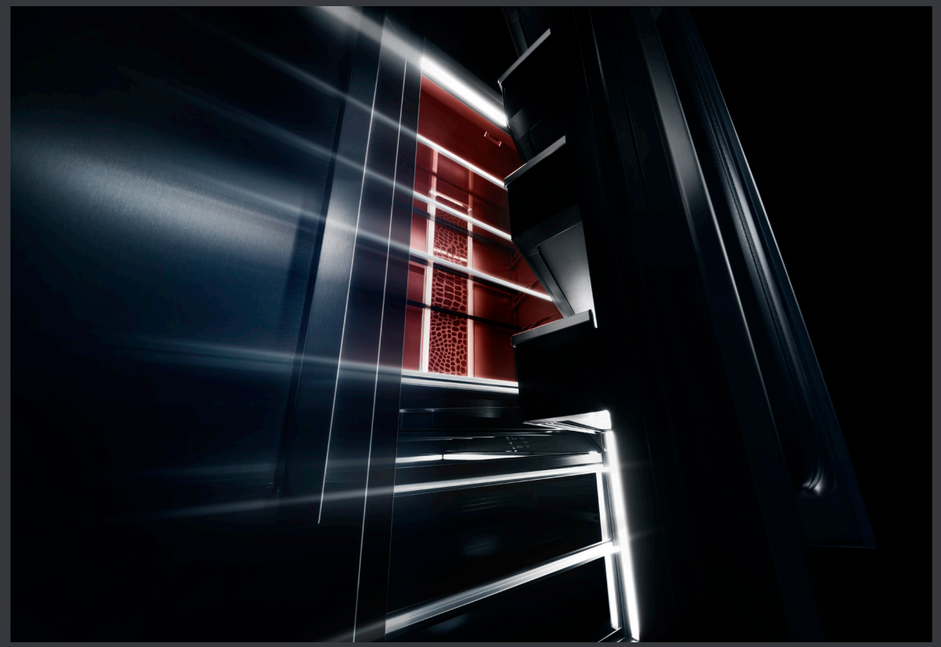

From the ashes of old luxury, the Smoke & Brass Professional-Style Range ascends to new heights of art and craft. Each refined piece features a distressed smoke finish, brazen brass accents, plus an anodized handle and knobs. No two will be the same, offering select owners a fearless statement unlike anything else.

Only 50 Smoke & Brass Professional-Style Ranges exist, each one etched with the Smoke & Brass name and production number.

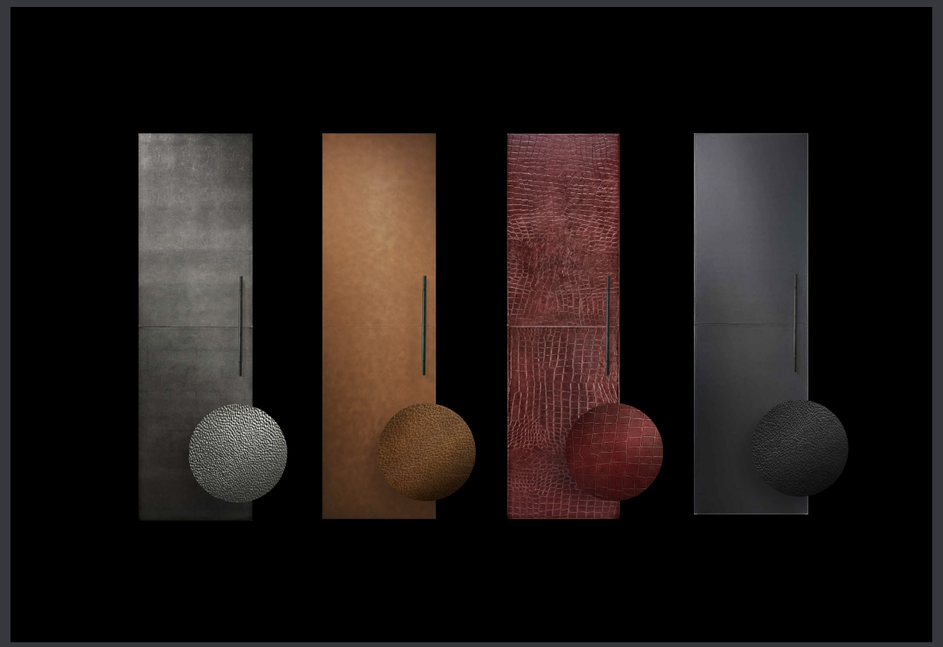

Intoxicate your senses. Each industry-exclusive column reveals a beautiful, yet shocking burgundy interior upon opening. Each limited edition pair is individually numbered and boasts a glass air tower with a snakeskin motif. Flaunt your food with the same devotion as a vintage car collector.

Only 13 pairs of Burlesque columns exist — etched with the Burlesque name and production number out of 13.

In a shift from traditional appliance design, we offer custom refrigeration panels that deliver a softness and craftsmanship typically reserved for luxury furniture design. Indulge your desires with four fashion-forward Italian-crafted leather designs in Caviar, Croc, Cognac and Carbon.
